## Success of DUPHAT 2016

## Workshops

DUPHAT hosted 30 workshops which focused on specialized topics which enhanced the knowledge and working skills of delegates. This year the workshops focused on topics that included Patient- Pharmacist communication, pharmacodynamics, Post graduate and training opportunities.

Special Managerial workshops on Leadership Development and Change Management

# Poster Presentation

Call to submit posters attracted over 500 posters from both professionals and undergraduates. The posters covered topics researched and were a great source of discussion and knowledge sharing. Over 25 institutions from around the globe participated in the event.

# Exhibition

The exhibits covered an area of over 10000sqm. World's top 10 pharma companies along with other pharma companies displayed their products. DUPHAT provided an excellent platform to launch new products, and build new clientele. Pavilions from China, Turkey, Georgia featured in the exhibition.

“ This is our first time to participate in DUPHAT 2016 and we regret a lot for not participating from previous years. The number of pharmacists attended this event is huge and great chance to meet multinational principals and pharmacists from other GCC countries. DUPHAT has huge reputation among Arab countries, so great chance for us in participating this year.”

**Samuel Wahba**  
Reckitt Benckiser Arabia FZE

“ Gilead has recently open new office in the Middle East and this is our first year to participate in DUPHAT. It's big event where all pharmacist around here and we will be able to introduce our products and be familiarized with the people. Our company has huge pipelines and we want to share it here.”

**Bassem Youssef**  
Regional Product Manager  
Gilead Sciences Dubai

“ This is the 21st edition of DUPHAT and we have been there since the beginning. DUPHAT is becoming the well-known healthcare exhibition within the region and one of recognizable events in healthcare business.”

**Khaled Abdul Aal**  
Director – Principal Management  
Modern Pharmaceutical Company
